India Digital Payment Market Forecast

Size, By Component, 2024-2033 (USD Billion)

STUDENT OPPORTUNITY

- A Landscape of Generalists:** While UPI is dominated by **PhonePe (48%)** and **Google Pay (37%)**, their **one-size-fits-all design** overlooks the nuanced **financial realities** and **challenges** of students.
- Direct Competition:** Apps like Jupiter and Splitwise offer **partial solutions** (trackers, bill-splitting) but **fail to fully serve** student finance problems.

TARGET SEGMENT

- 7-15% of the UPI market** where the new or smaller startups trying to penetrate.
- Specific **user segment** of **18 to 25 years** of age which is **under-served specifically** as per their needs.

Priyal Jain

Monthly Allowance: Rs 7000
Part-time-job : YES

Priyal Jain, a 21-year-old, final-year engineering student. Alongside her studies, she earns a variable income from online tutoring. She is tech-savvy, ambitious, and actively looking for ways to make her money work harder for her.

Challenges

Irregular income makes **budgeting** tough, and **tracking allowance** plus **part-time earnings** is cumbersome. On top of that, she has a small **loan**, adding pressure to **manage daily spends** along with repayments.

Needs

A flexible **budgeting tool** that shows her total financial picture in one place. She also needs **loan management** support to **track repayment** dates and balance them with her monthly budget.

Souvik Ghosh

Monthly Allowance: Rs 5000
Part-time-job : NO

Souvik Ghosh, a 19-year-old B.Com student who is very active socially. His life revolves around his friends, and much of his spending is on group activities like eating out, movies, and weekend trips. He is generous and often pays for the group, intending to collect the money later.

Challenges

Prone to **impulse spending** due to **peer pressure** and has trouble **tracking** shared expenses and struggles to keep track of who owes him money from **shared expenses**, leading to awkward conversations and **lost funds**.

Needs

He needs a very simple and non-confrontational way to **split bills and send payment requests** to his friends right after a transaction is made, need **instant feedback** on how each small purchase impacts his **daily budget**.

Suraj Pal

Monthly Allowance: Rs 3500
Part-time-job : NO

Suraj Pal, an 18-year-old, first-year B.A. student in a new city, away from home for the first time. He receives a fixed monthly allowance from his parents and has no bank account yet. He is diligent in his studies but finds the concept of managing money intimidating.

Challenges

He's overwhelmed and anxious about spending, fearing he'll **run out of money** and need to ask his parents for more. A **lack of financial knowledge** makes **saving and budgeting feel foreign** and complicated.

Needs

A clear **daily spending** guideline to eliminate guesswork and feel **in control**. An engaging way to **learn personal finance basics** without confusing jargon. A single view of all **cash and online** transactions to **track spending** and reduce anxiety.

Persona

Priyal Jain
(The Resourceful Hustler)

Souvik Ghosh
(The Social Spender)

Suraj Pal
(The Anxious Newcomer)

- **Group Plans Made Easy:** Create **shared plans** for trips, rent, or events with **peers**.
- **Smart Settlements:** Auto-calculate dues and **send instant notifications** for transparent repayments.

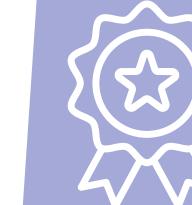

FinQuest

- **Gamified financial literacy:** Addresses the **critical gap** of low financial knowledge among students.
- **Micro-Lessons:** Small, easy **finance topics** taught through **everyday student scenarios** and trivia.

OpportuNet

- **Student-Centric Rewards:** Brand-collaborated offers and perks tailored for **student needs**.
- **Opportunities Hub:** Personalized **scholarships** from across India with direct **apply links**.

Onboarding

Let's Get You Started
Choose how you'd like to set up your FinTrack account

I have a bank account
I'm ready to link it now.

[Get started →](#)

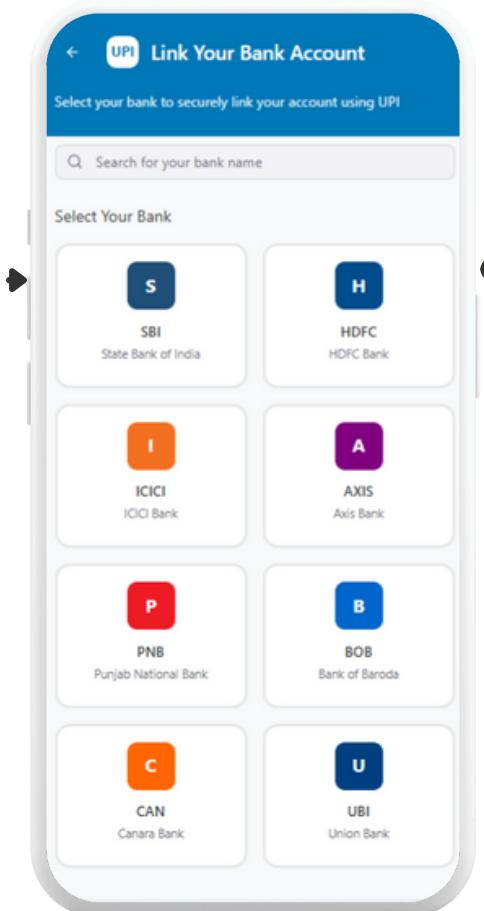

Create a free account

Zero balance, requires College ID & Aadhaar.

[Get started →](#)

Both options are completely secure and encrypted. You can change your preferences anytime in settings.

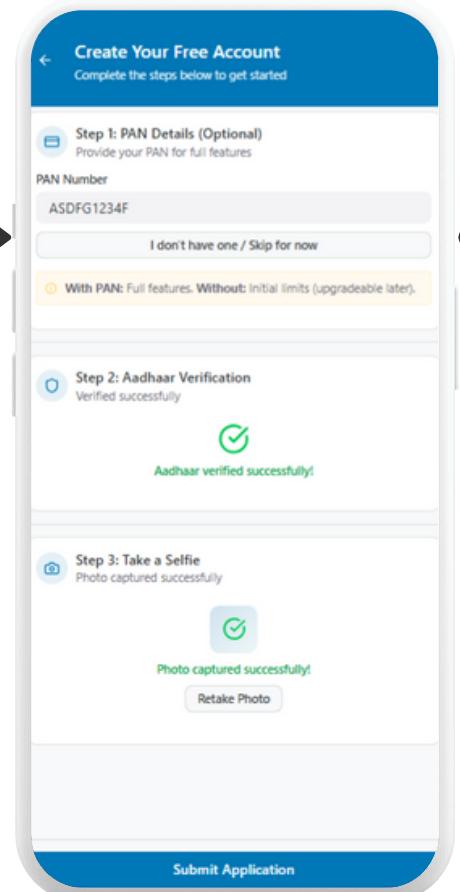

The user chooses between linking an **existing bank account** or **creating a new, free student account**.

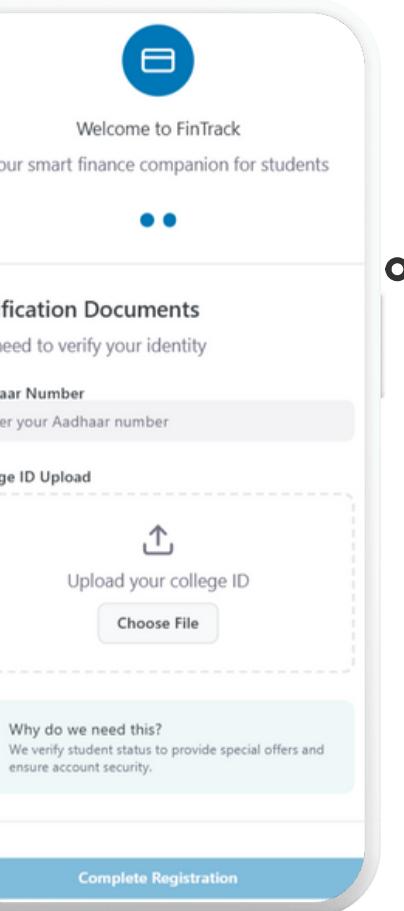

The user **verifies their student status** and identity by providing their **college ID** and **Aadhaar** details.

If the user **already has an account**, they **select their bank** from a list to begin the **secure linking** process.

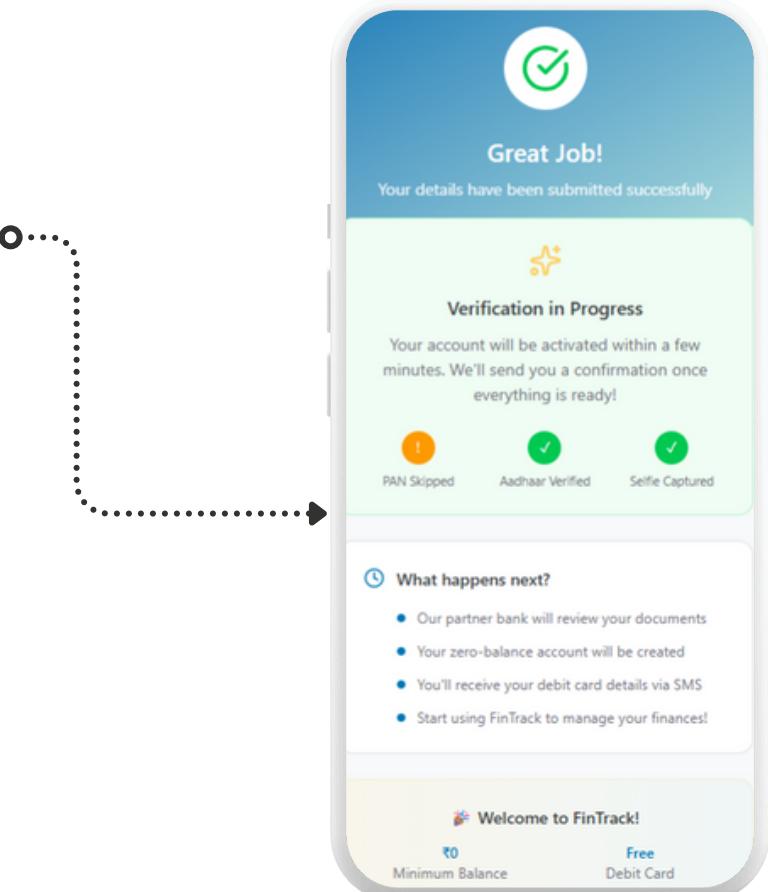

To **create a new account**, the user completes a simple **3-step digital verification** (Optional PAN, Aadhaar OTP, and Selfie).

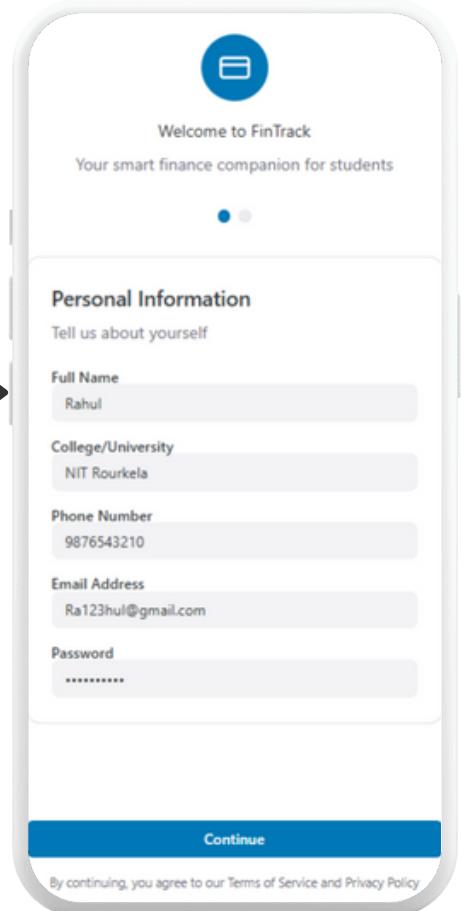

.....

.....

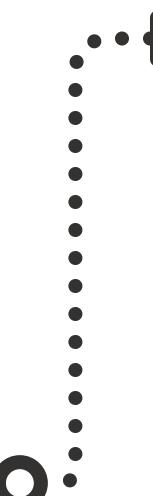

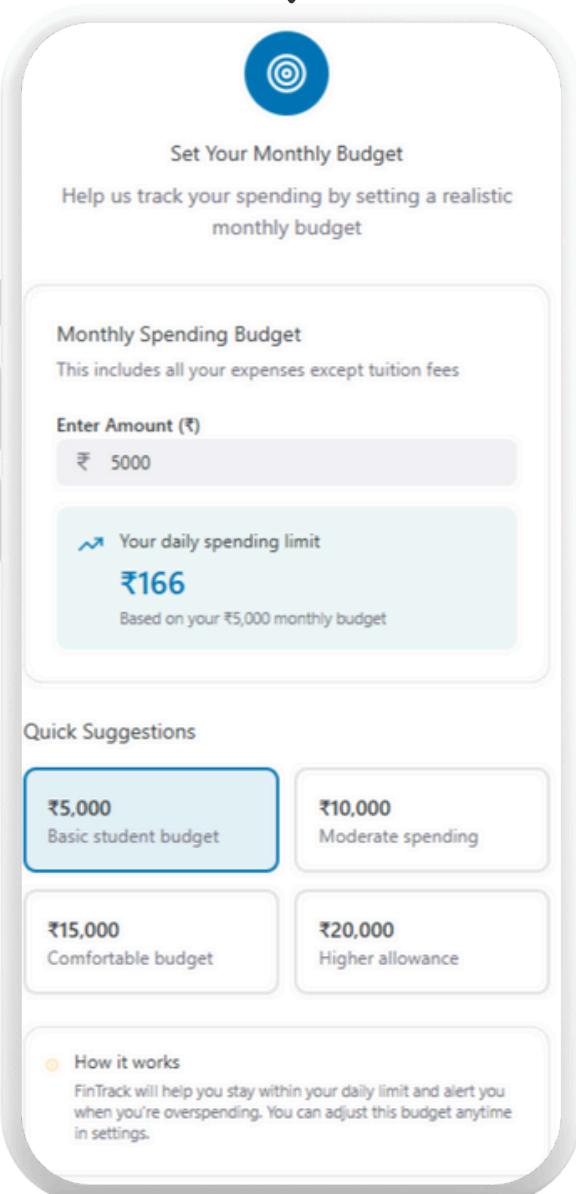

.....

.....

After submitting, the user is informed they will **receive an official SMS** from the partner bank confirming their **account details**.

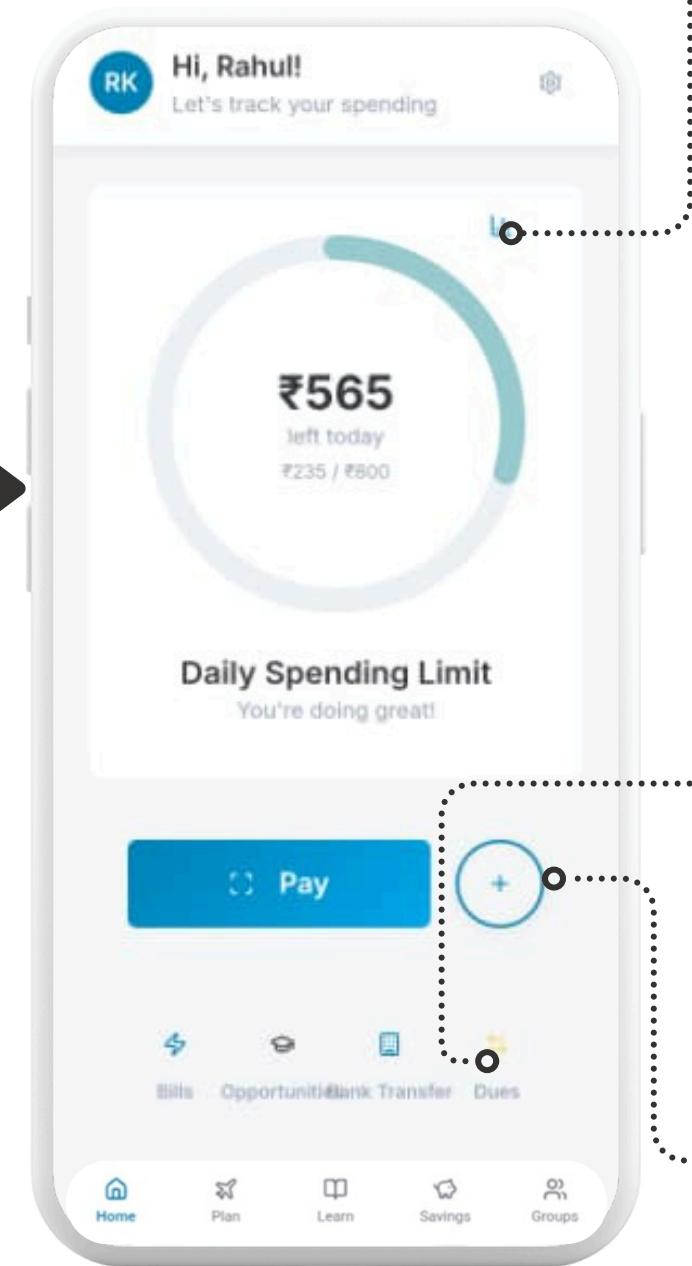

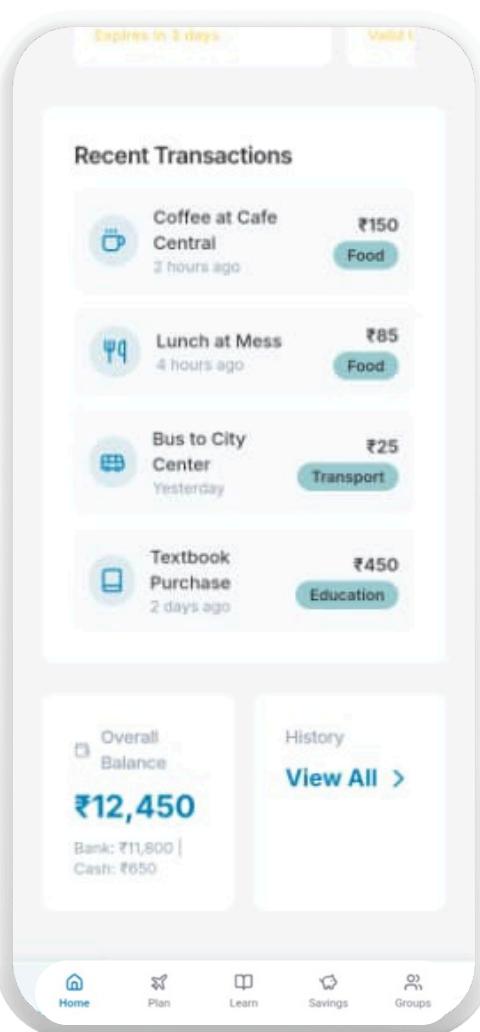

A welcoming **onboarding process** that quickly **sets up a new user** by personalizing their journey based on their **banking needs** and establishing their **first budget**.

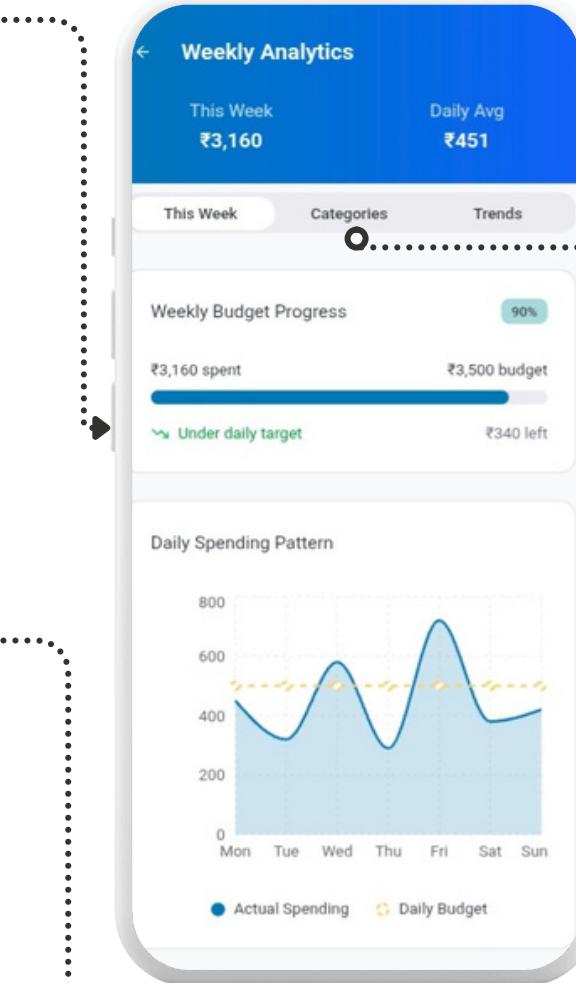

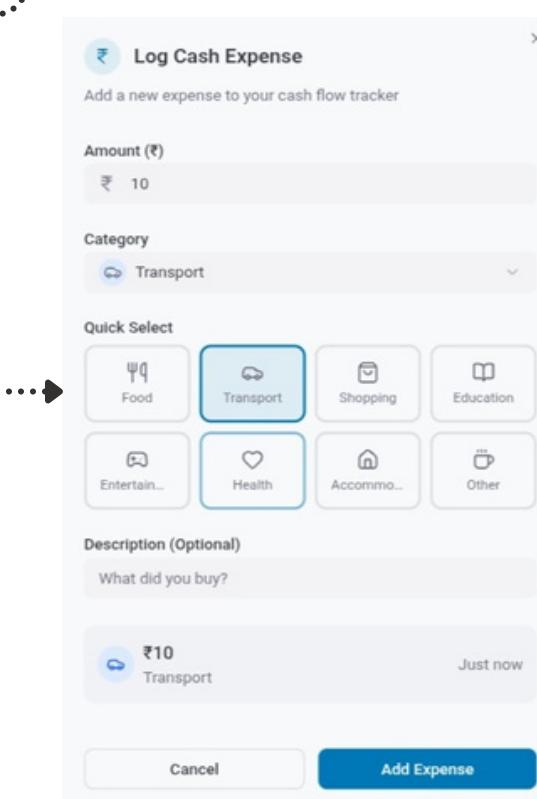

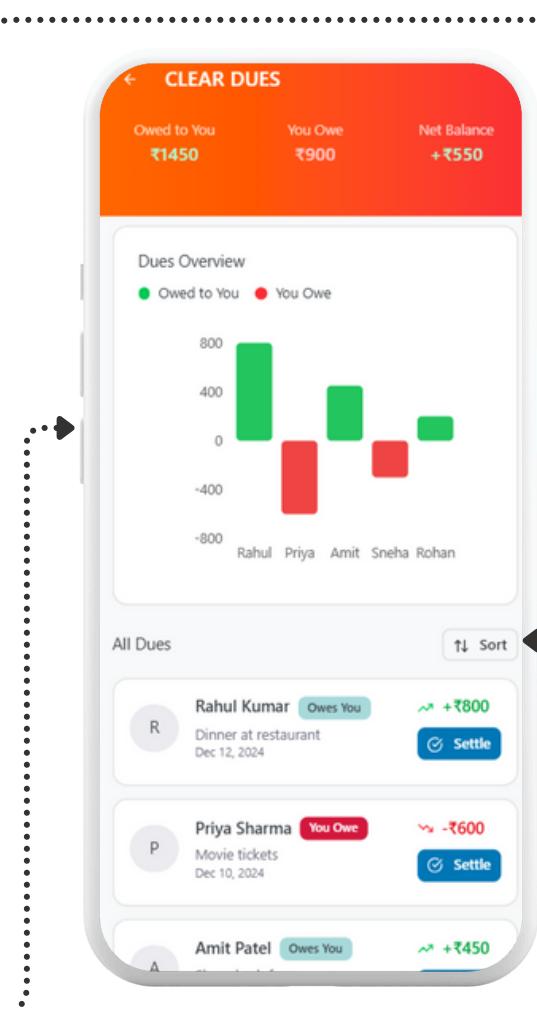

Home Page and Features

THE HOME SCREEN

User can find the **smart save meter** and recent transaction along with regular options of **bill payment, clear-dues and bank transfer**.

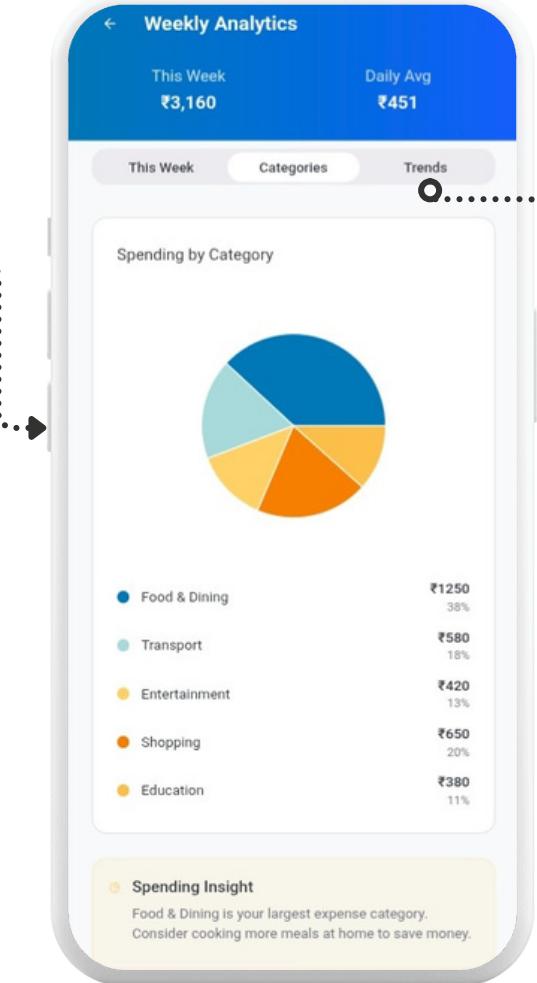

While **payment** user can select the **category** for what the payment has been made through various icons or can **manually enter** it as well.

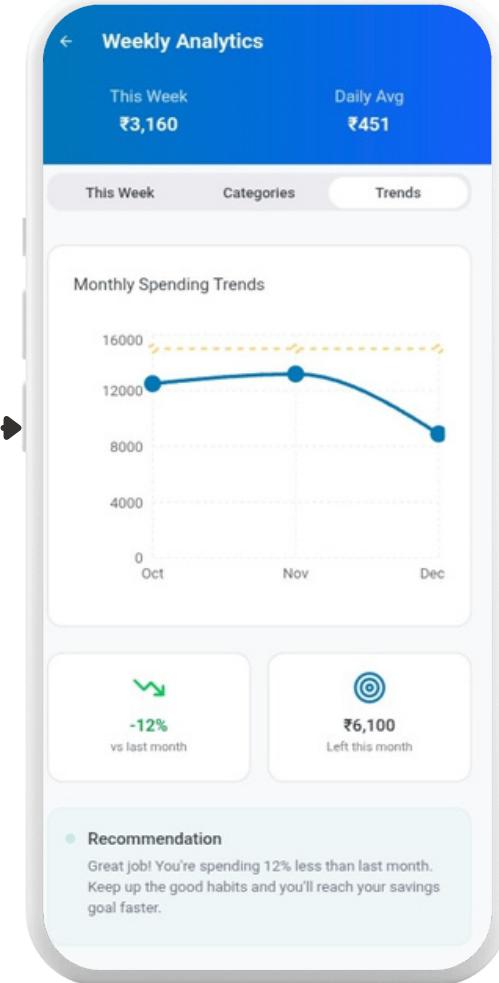

CLEAR DUES
Any **money borrowed or lent** from friends can be **easily tracked** here. Interesting **bar-graph display**. Money info gets **auto added** or removed here when **you pay** for friends or **they pay you**.

CASH LENS
Seamless **cash input and integration** to avoid any miscalculations involving **cash transactions**.

SMART SAVE METER
Daily limit available is displayed at the home screen itself. When clicked on the tracker it takes user to **weekly and monthly insights** through various **graphics and visuals**.

This entire section focuses on **primary issues** of students - budgeting and tracking through **SMART SAVE METER**, loan among peers through **CLEAR DUES** section and managing and tracking cash payments through **CASH LENS**.

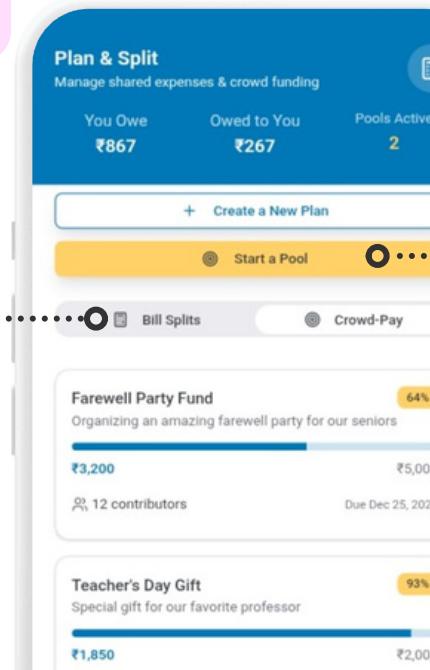

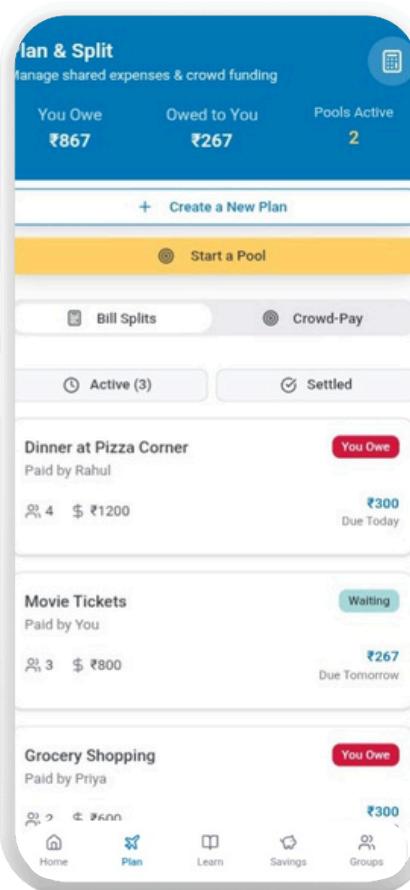

These insights include **categorizations** as well. Amount spent on **foods, entertainment, transport** etc are **collectively displayed** through visuals.

Other Features

PEER PLAN

Plan **something big** in advanced like trip or party. Add **your friends** initially and **their contributions** afterwards. App would send the **debt notifications instantly** after the event. This amount gets **auto-added to clear-dues section**

Create Crowd-Pay Pool
Set up a new crowd-funding pool to collect money from multiple contributors for shared goals or events.

Pool Name
e.g., Farewell Party Fund

Target Amount (₹)
5000

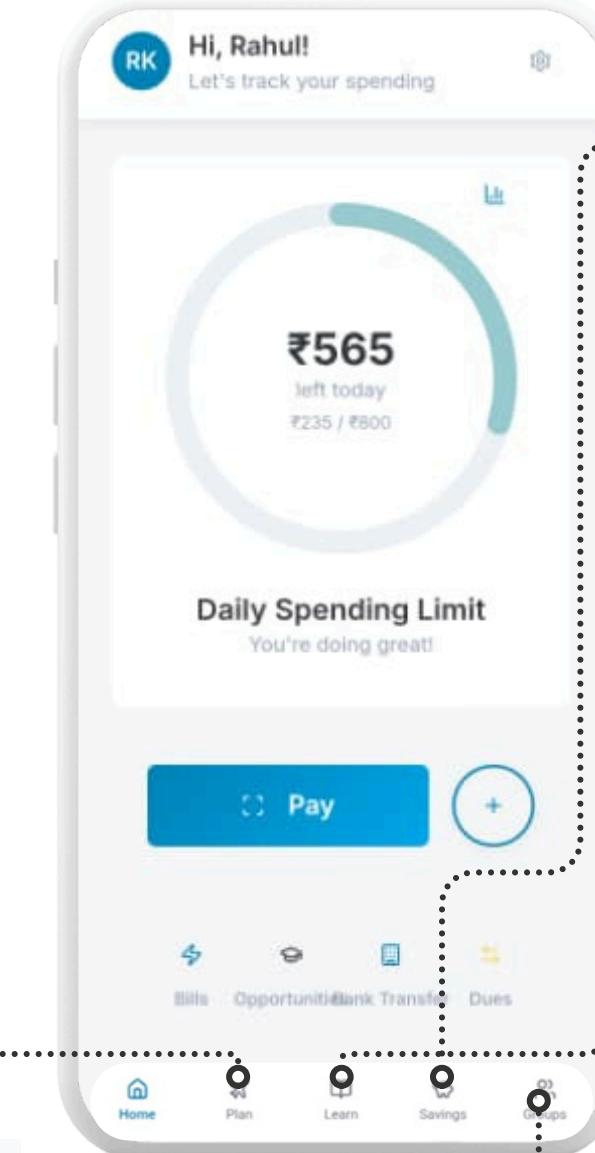

Deadline
20/08/2025

Description
Brief description of what this pool is for...

Create Pool

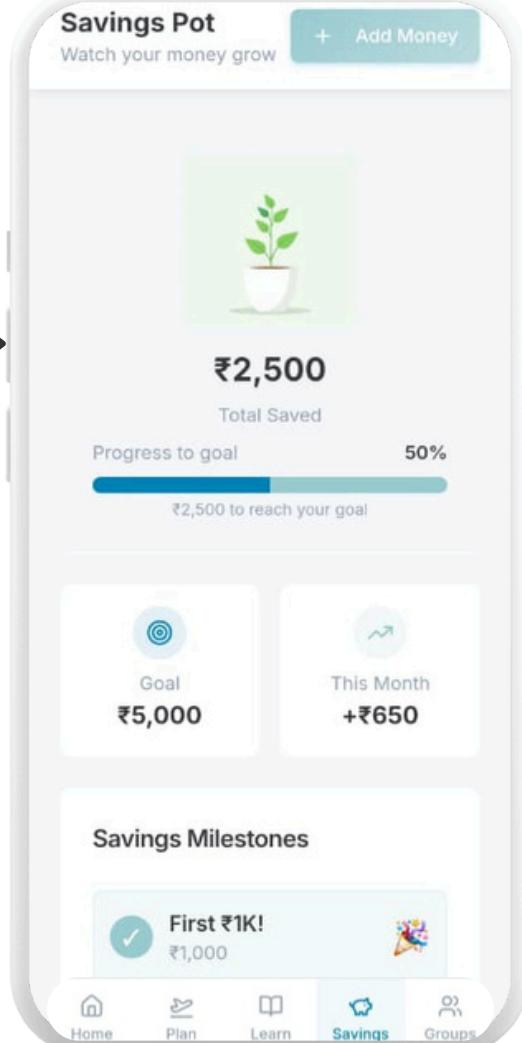

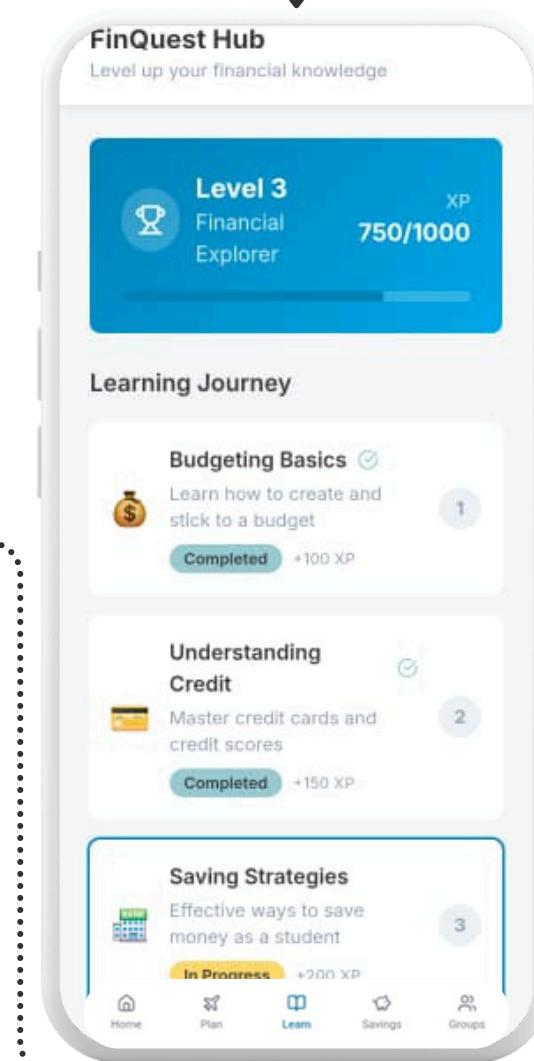

Crowd Pay

Create a **payment pool** for an event who has **contributors** maybe even in **hundreds** such as **fest or farewell**. Share **QR links** to others for payment. Any amount spent from this can be **tagged as not a personal spend**.

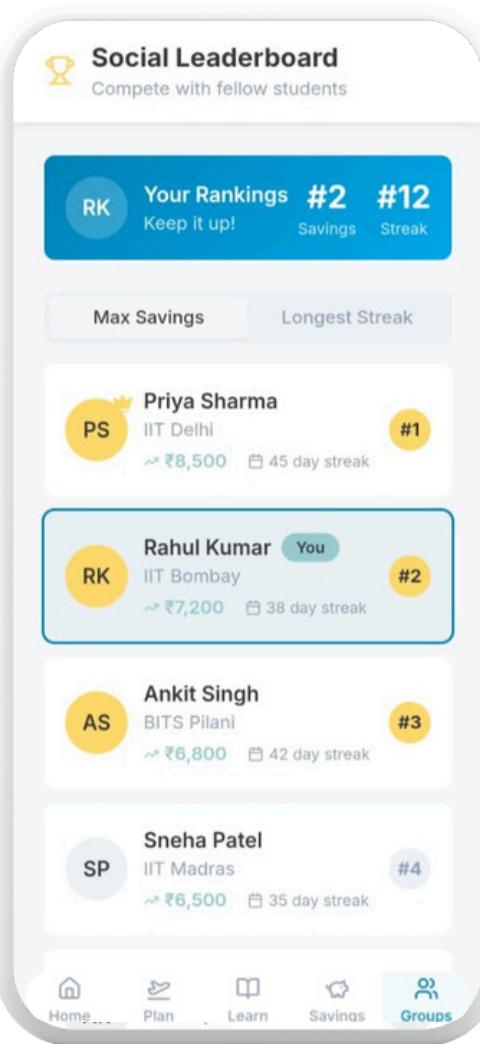

FINQUEST HUB

Bite sized financial literacy lessons from level zero to important concepts in the form of animations or trivia on a daily basis.

Savings Pot
Cumulative money saved everyday is displayed here with a bar which shows how much **amount is remaining** from the **actual goal** earlier set through **smart save meter**.

Social Leaderboard

A brief leaderboard which enlists who **among your peers** is **best at saving money** and maintaining their **streak**.

Overview	Persona	Features	Wireframes	RICE	KPI	GTM	Summary
<h1>📋 Prioritization Metric</h1>

NORTH STAR METRIC

Students Achieving Weekly Budgeting Goals.

$$\text{Goal Success \%} = \frac{\text{Students Who Met Their Goal}}{\text{Students With an Active Goal}}$$

- Builds **Positive** and **Long Lasting Financial Habits** for Students
- Measures **Real-World Impact**, Not Just App Usage
- A Leading **Indicator of Long-Term Retention**
- **Success** keeps users **loyal**.

Key Performance Indicators

PRIMARY METRICS

- **Activation** - Measures if new users grasp the app's core value right away.

$$\text{Activation \%} = \frac{\text{Users Completing a Key Action}}{\text{Total New Users}}$$

- **Stickiness Ratio** - Measures if the app is a daily habit.

$$\text{Stickiness Ratio} = \frac{\text{Daily Active Users}}{\text{Monthly Active Users}}$$

- **Retention** - Tracks long-term user loyalty and value.

$$\text{Retention \%} = \frac{\text{Returned Users From a Group}}{\text{Initial Users in that Group}}$$

SECONDARY METRICS

- **Cost Per Acquisition** - Tracks the cost of acquiring new users.

$$\text{CPA} = \frac{\text{Total Marketing Cost}}{\text{New Users Acquired}}$$

- **Feature Adoption %** - Identifies the most valuable features for users.

$$\text{Feature Adoption \%} = \frac{\text{Users of a Specific Feature}}{\text{Total Active Users}}$$

- **Net Promoter Score** - Measures user loyalty and satisfaction.

$$\text{NPS} = (\% \text{ Promoters}) - (\% \text{ Detractors})$$

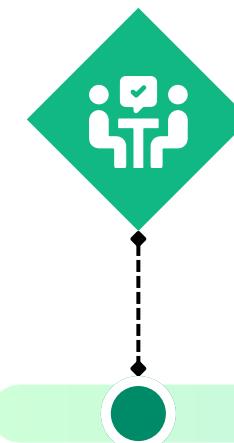

- **Churn %** - Measures how quickly users abandon the app

$$\text{Churn \%} = \frac{\text{Users Lost in a Period}}{\text{Users at Start of Period}}$$

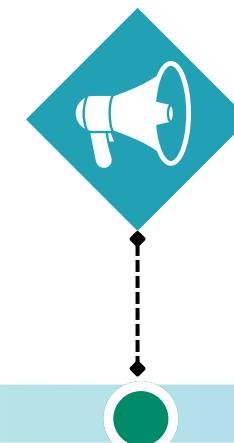

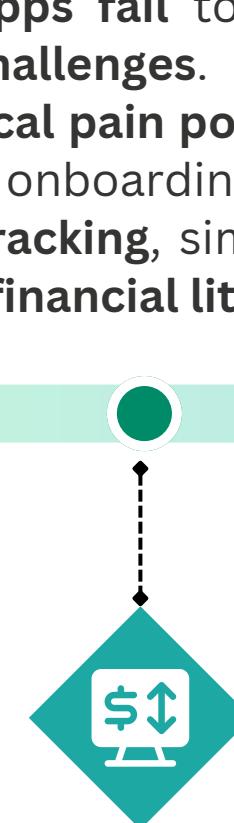

PRIORITY

Core Problem & MVP Focus: Students face **financial anxiety** as **existing apps fail** to address their **unique challenges**. The **MVP** will solve **critical pain points**: **easy bank account** onboarding, automated **expense tracking**, simple **budgeting tools** and **financial literacy**.

PLANNING

To launch FinTrack in **three strategically selected colleges** (Tier 1 Urban, Tier 2 Semi-urban, Tier 3 Rural), the product will be **validated across key student segments**, initial users acquired, and **feedback gathered** for scaling, while ensuring users' money is **safeguarded** through **RBI compliance**, **PCI-DSS standards**, **encryption**, standard protocols and continuous monitoring.

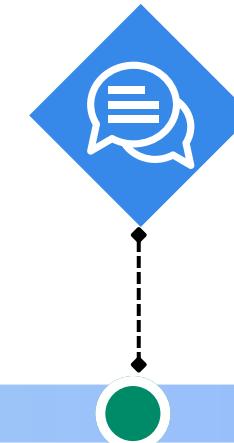

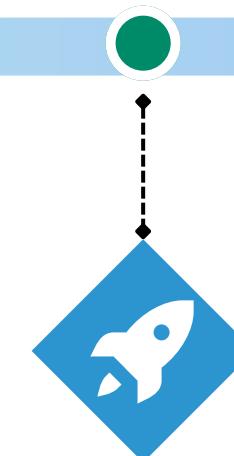

PHASE 0

Pre-Launch Hype & Groundwork
Recruit **early ambassadors** (club leaders, micro-influencers) for exclusive adoption and social proof
Run a **targeted social media campaign** and **ground-buzz** through **partnerships** with local vendors through **printed meme ads on Tea & coffee cups** and **posters** at least from **a month before**.

PHASE 1

On-Campus Activation Hubs: Booths near **canteens, libraries, lecture halls**.
Exclusive Referral Program: ₹50 each for **inviting 3 friends**.
Local Vendor Tie-ups: **Discounts** at tea stalls, canteens, stationery shops **via app QR payments** from the launch day **until a month**.

PHASE 2

Post-Launch & Growth. Collaborations with **fest** by making our app the **official transaction platform** in return for **sponsorships**, and co-branded merch which improves visibility.
Establish a **proactive feedback loop** through ambassadors and **in-app surveys**. Release of **post-MVP features**
Recognition & Rewards: Paid Internships for top ambassadors, exclusive merch for **advocates**, and social spotlights for community stars **during next 3 to 6 months**.

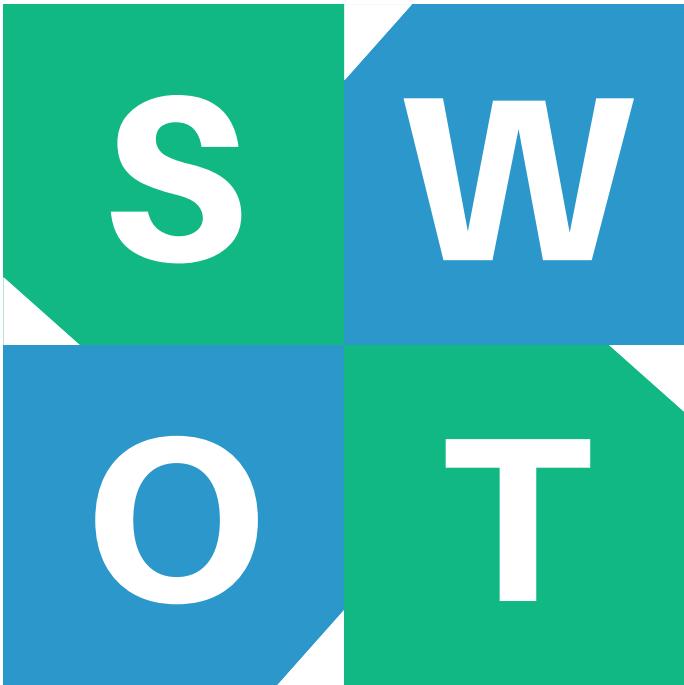

Features	Problems it Tackles	% Students *

Crowd-Pay	Fund-collection for Events	21.10%

STRENGTHS

Student-First Design
Solves Niche Problems

OPPORTUNITIES

Large Student Market
Unaddressed Student
Needs

**WEAKNESSES**

Established Competition
Complex User Problems

THREATS

Fintech Regulations
Data Privacy Risks
Evolving Competitors

To summarize, the opportunity is clear. The student market is large, and their financial needs are unmet. FinTrack is the right product at the right time. Our MVP directly solves the most critical pain points for students, offering the simplicity and guidance they need. With a targeted go-to-market strategy and a clear vision, FinTrack is poised to become the essential financial companion for students across India.

Thank You.
